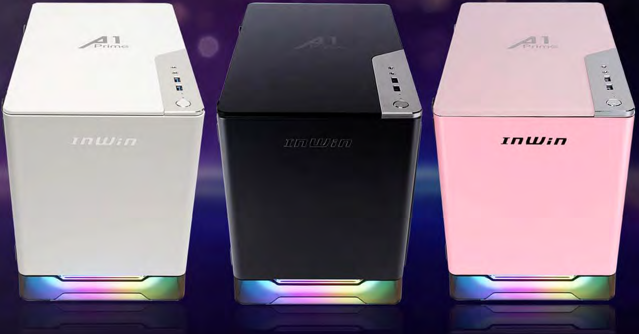
A1 Prime

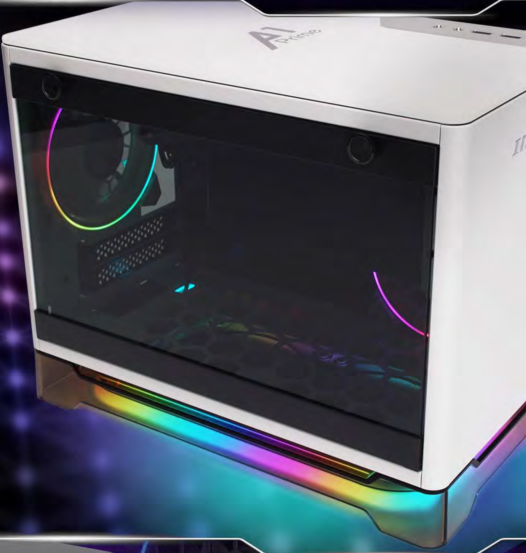
Mini-ITX Tower



Personalize Your Rig

The A1 Prime features a ventilated, tinted transparent stand. The integrated LED module is concealed within the bottom portion of the chassis and the ARGB lights pierce through to create an awesome lighting experience.

Addressable RGB



InWin
SIRIUS LOOP

Loop in More Colors

The A1 Prime Black comes with two complementary Sirius Loop ASL120 fans. The matte black structure is fitted with dual radiant addressable RGB loops.

SIRIUS LOOP

Gorgeous ARGB Lighting Effect

The ARGB feature complements other ARGB components and can be synced together with motherboard software via 3-pin, 5V header.

* Included ARGB One-click controller allows fans to light up without an addressable RGB motherboard.

80 PLUS GOLD

Upgraded InWin 750W PSU

The P75F is prebuilt within the A1 Prime with cables managed. It’s an 80 PLUS ® Gold certified power supply with up to 90% efficiency, which can fulfill the power consumption requirement for the latest high-end graphics card.

5-Year Warranty

InWin offers a 5-year warranty to back our claim of providing reliable and dependable performance.

Squaring Infinite Possibilities

The square structure provides a hassle-free installation, and the capacity to house powerful hardware in its Mini-ITX form. The A1 Prime supports a CPU heatsink height up to 160mm and accommodates up to 320mm length graphics cards.
