MFX COOLING FAN
USER MANUAL

The MFX fan offers an Ultra-silent cooling performance with a powerful ARGB lighting system. Follow this sheet to enjoy all its features:

Automatic ARGB lighting

**- DIRECT 4PIN MOTHERBOARD** Connect the 6 pin adaptor and the 4 pin fan connector to your motherboard

**- DIRECT MOLEX PSU** Connect the 6 pin adaptor and the MOLEX connector to the PSU

ARGB lighting control

**- ARGB CONTROLLER** Connect the 6 pin fan cable to the 6 pin connector of the ARGB HUB

HUB

- ARGB MOTHERBOARD Connect the 6 pin adaptor and the 4 pin FAN connector to your motherboard. Then connect A or B depending on the ARGB connector type of your board.

A
Addressable RGB +5V
connector - 3 pin

B
VDG +5V
connector - 3 pin

Note to user: Check for ARGB compatibilities on your motherboard's user manual. Please keep this sheet for future reference. Visit our website **www.marsgaming.eu** for more info about your product.
