

# MMIC

## USB GAMING MICROPHONE

The MMIC microphone is a USB device that allows you to enjoy fast and easy online communication, with an RGB Flow lighting system that combines perfectly with the rest of your setup and a superior sound quality.

Follow these steps to enjoy the best experience with your MMIC:

1. Connect the microphone via USB and select it from the audio device management panel of your PC.
2. Move the flexible arm and adapt it as you like to achieve a close and clear sound.
3. Press the MMIC button to turn both lighting and microphone ON/OFF. If LED system isn't lighting, microphone is not activated.
