

VM410

Premium Architecture of Sounds

How did we build for VM410?

Many headsets sacrifice customization with comfort; however the VM410 retains the most essential support to achieve the sweet spot of both customization and comfort. Headband, depth, and horizontal ear-shell adjustment will provide you with a pressure-free gaming experience.

Headband: Pressing and Adjustment Horizontal Adjustment Vertical Adjustment

Crystal Clear Inputs

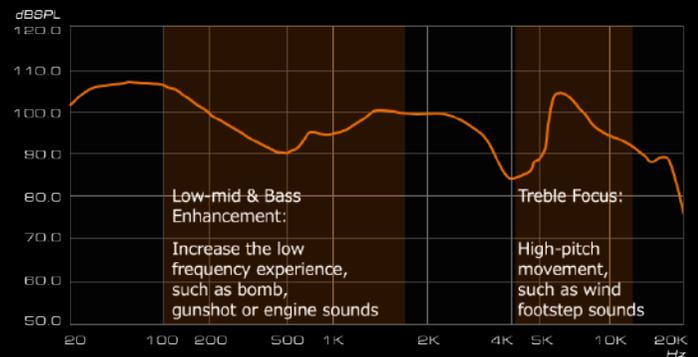

With VM410, its large 9.7mm noise-canceling microphone receives a refined frequency voice tone. The extended length of the microphone can be adjusted for extra clarity and its anti-pop cover reduces sound disturbance.

Unidirectional Large 9.7mm Microphone with Anti-pop Foam

How did we make the finest sound in VM410?

The COUGAR VM410 headset is architected with a layered system of components to create the ideal sounds for gaming. It transmits entirely without any distortion in an incredibly small space to bring you the best of the best.

Sturdy Aluminum Structure

Aluminum features the light but the robust structure, and the metal hinge provides the solidness and ensures comfort through long gaming sessions.

Extra earpads, extra points

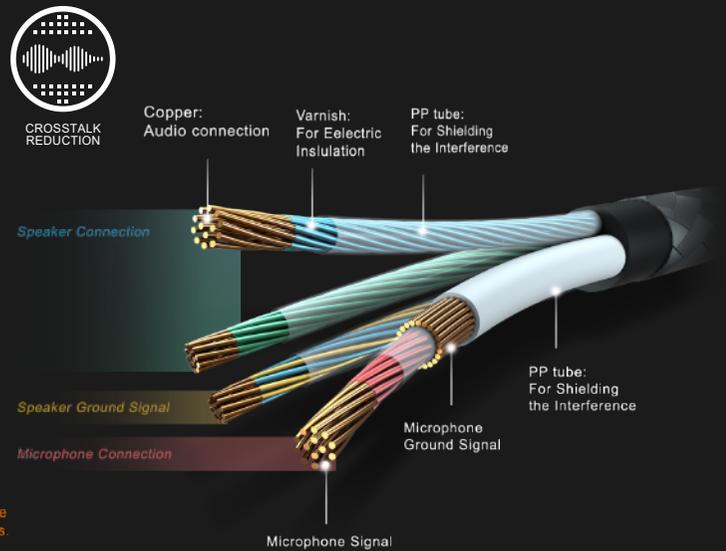

VM410 equips you with breathable fabric leather earpads that allows you to have a cozy wearing experience while you play each game.

Crosstalk Reduction

Through different platforms and communication software, it can be hard to avoid crosstalk from standard electrical 3.5mm phone jacks. However, VM410 is equipped with true fidelity cords with well-shielding and insulation design for reducing the crosstalk signal.

Noise: e.g., Gaming Sound Pick-up or Electrical Interference
 *Tested under Windows 10, at COUGAR Soundwave Laboratory at COUGAR Soundwave Laboratory, different PC platforms and communication software might yield different results.

Features

- Reduce Crosstalk Signal Transmission
- 4 Pole to 3 Pole Adapter for Extra Compatibility
- Perfect Clarity: 9.7mm Noise Cancellation Microphone
- Integrated Chamber and Frequency Enhancement Design
- 53mm Graphene Diaphragm Drivers: Pro-level Sound Quality
- Convenience: Volume Control and Microphone Switch Control
- 259g Ultra Lightweight Suspended Leatherlike Headband Design

Compatibility

The headset comes with a 4-pole 3.5mm and 3-pole PC adapter that will allow you to use with laptops, phones, and other devices.

Specifications Headphone

- Driver : 53mm
- Frequency Response : 20Hz-20kHz
- Max. Input Power : 100mw
- Impedance at 1KHz : 32Ω ± 15%
- Sensitivity at 1KHz : 113dB ± 3dB

Microphone

- Driver : 9.7mm
- Sensitivity at 1KHz : 20Hz-20kHz
- Type : Noise Cancelling
- Impedance : <2.2KΩ
- Frequency : 100Hz to 10KHz
